

STANDARD 1

Educators value and care for students and act in their best interests

Evidence: Sparks Prezi

Reflection: The evidence I have chosen is my Sparks prezi. Based on the work of the late Dr. Peter Benson and the Search Institute, my project explores best practices in supporting students in a Social-Emotional capacity toward discovering, and fostering their own Sparks. This philosophy is the foundation of my teaching, and what I strive for in the classroom: Creating a nurturing environment that not only feels safe to students, but where they feel confident to be themselves as part of a community of learners.
