

## **STANDARD 2**

### **Educators are role models who act ethically and honestly**

**Evidence:** Ethical Decision Making Model

**Reflection:** For this evidence, I have chosen my Ethical Decision Making Model. It highlights my background and strategies for ethical decision-making, especially important when faced with challenging situations. Having prepared this model, means that I have reflected on potential scenarios, and have made consideration so that when I am faced with a difficult decision, I will be aptly prepared to address the situation promptly and professionally.
