

STANDARD 4

Educators value the involvement and support of parents, guardians, families and communities in schools

Evidence: Letter home

Reflection: I sent home weekly updates to parents to highlight upcoming projects, overviews of unit matrices, to report on learning and progress, etc. These were warmly received and often encouraged dialogue between myself and parents both before/after school, and via email.

I have chosen my final update as evidence for this standard. It highlights the culmination of a highly integrated unit.
